Revitalizing Music Education
and
Growing Careers

Growing Music ... Organically

We believe music *IS* important. *VERY* important.

Planet Earth Music is all about helping individuals of all ages identify their gifts and give them permission to cultivate and grow their art. We assist artists in blooming locally and growing globally ... and we believe we are preparing the best soil on the planet. This is our way of thinking "green" when it comes to music.

Lessons ... and Beyond

Planet Earth Music expands the common scope of quality music education programs already in place in your local area by offering inclusion in group classes, professional clinics, master classes, opportunities to perform live, and a structure to record personal projects. Planet Earth Music considers connecting these dots an integral part of understanding the modern music business ... and the best way to germinate some amazing music careers.

It's all starts with YOU!

"It's not easy being green." Kermit was right on the money -- literally. Please invest in the lives of our future musicians and help vitalize and expand the scope of music programs in your local area. Donations are held by the Planet Earth Music Foundation, a 501(c)3 organization, and used to scholarship students in *all* aspects of our program. Your donation is 100% Tax Deductable. You can make a one-time or subscription donation at our website.

Please visit planetearthmusic.org where you can..

- .. Apply as a student and have access to group classes, clinics, events, and scholarships.
- .. Register as a "Friend" of Planet Earth Music. We will email you news and updates as we build the Planet Earth community.
- .. See what we are about in greater detail.
